

Category:Internal medicine

Pages in category "Internal medicine"

The following 200 pages are in this category, out of 313 total.

(previous page) (next page)

A

- Acute mediastinitis
- Acute pancreatitis (diagnostic tests)
- Adolescence
- Albuminuria
- Amylin
- An incretin analog
- Aneurysm
- Angioinvasive Treatment Arterial Occlusion and Stenosis
- Angioinvasive treatment of arterial blockages and stenoses
- Anticancer therapy
- Antiparkinson drugs
- Apgar score
- Arrhythmogenic cardiomyopathy
- Assessment of total cardiovascular risk
- Atrial fibrillation
- Atrial septal defect

B

- Bacterial Gastroenteritis
- Basic diagnostic examinations in hematooncology
- Basic symptoms of diseases of the esophagus, stomach and intestines
- Basic tests in hematology (pediatrics)
- Bence-Jones protein
- Benign
- Bile duct tumors
- Biochemical examination of the pancreas
- Bladder Cancer
- Bladder carcinoma
- Blood pressure measurment
- Bone marrow attenuation
- Bradyarrhythmia
- Bradyarrhythmias and Bundle branch blockages
- Breathing and its disorders
- Bronchiectasis (1.LF)
- Brugada syndrome
- Budd - Chiari syndrome

C

- Calcifylaxis
- Calcium phosphate metabolism
- Calprotectin in faeces
- Carbohydrates in food
- Carbohydrates in the diet
- Carbon-13 labeled D-xylose breath test
- Carcinoma
- Carcinoma of Papilla Vateri
- Cardiac conduction system
- Cardiac inflammations (pediatrics)
- Cardiac sarcoidosis
- Cardiac tamponade (pediatry)
- Cardiogenic shock (pediatrics)
- Cardiomyopathy (CM)
- Arterial Catheter
- Catheter for peritoneal dialysis
- Celiac disease screening
- Central cyanosis
- Cerebral-induced salt loss syndrome
- Characteristics of pharmacotherapy in old age

- Characteristics of tumour growth
- Cherry-red spot
- Cheyne-Stokes Breathing
- Chromosomal aberrations in the etiology of neoplasms
- Chromosome aberrations in the etiology of neoplasia
- Chronic venous insufficiency
- Clinical signs of shock (pediatrics)
- Clubbed fingers
- Colic
- Colorectal cancer
- Combined disorders of acid-base balance
- Community-acquired pneumonia
- Complications of diabetes mellitus
- Congenital syphilis
- Congenital thrombophilia
- Counter current multiplication system
- Cretenismus
- Crigler-Najjar syndrome
- Cushing's syndrome
- Cutaneous porphyrias

D

- D-dimer
- Delayed puberty (puberta tarda)
- Dermatitis Artefacta
- Dermatitis contacta allergica
- Dermatomyositis
- Dexamethasone suppression test
- Diabetes mellitus type 1 (biochemistry)
- Diabetic education
- Diagnostic imaging methods in sudden abdominal events
- Diagnostic imaging methods in the examination of the digestive tract
- Diastolic blood pressure
- Diet in diseases of the pancreas and gallbladder
- Differential diagnosis of chest pain/PGS (VPL)
- Differential diagnosis of the painful eye
- Direct vasodilation
- Diseases caused by increased number of erythrocytes
- Disorders of uric acid metabolism / Questions and case reports
- Disorders of uric acid metabolism/Questions and case studies
- Dissection of the thoracic aorta
- Diuresis
- Diuretics
- Dressler's syndrome
- Dromotropia
- Dyspnea

E

- Ebstein anomaly
- Effect of drugs on heart rhythm
- Ehlers-Danlos syndrome
- Electrocardiography 2 (2. LF UK)
- Embolism
- Endocarditis
- Enteroscopy
- Enterotoxigenesis
- Epigastrium
- Epistaxis
- Erythema nodosum
- Essential thrombocythemia
- Estimation of glomerular filtration according to Cockcroft and Gault
- Estrogens
- Examination of position, gait and mobility
- Excitotoxicity in the pathogenesis of CNS disorders
- Extrasystole

F

- Fabry Disease
- Facies adenoidea
- Fats in diet
- Focal segmental glomerulosclerosis

G

- Gallbladder cancer
- Gastrinoma
- Gastroesophageic reflux
- Gaucher disease
- Gen ATP7B
- General principles of anticancer treatment
- Gestagens
- Gestational cardiomyopathy
- Giant cell arteritis (briefly)
- Glomerulonephritis
- Glomerulopathy manifested by nephrotic syndrome
- Glucagon
- Gynecomastia

H

- Head-up tilt test
- Headaches/PGS (VPL)
- Heart inflammation
- Heart Tumors
- Hematogenous tumors
- Hereditary disorders of amino acid metabolism/Questions and case studies
- Hereditary osteo-onychodysplasia
- Hiatal hernia
- Histopathological changes in the skin
- Hodgkin's lymphoma
- Hormonal contraception
- Hormonal contraception
- Hormone
- Hypertrophic cardiomyopathy
- Hypertrophic cardiomyopathy/diagnosis
- Hypertrophic cardiomyopathy/treatment
- Hypnotics
- Hypochloraemia
- Hypochloremia
- Hypoglycemia
- Hypokalemia
- Hypothalamo-pituitary system

I

- IgA nephropathy
- Indicators of bone remodeling, markers of bone resorption
- Indoor environment (pediatrics)
- Infective endocarditis (pediatrics)
- Inflammation of the mediastinum
- Inflammatory rheumatic diseases
- Insulin pump
- Internal environment (pediatrics)
- Wells' score
- Interstitial lung processes
- Interstitial pulmonary processes
- Invasive blood pressure monitoring (pediatrics)
- Ion pumps
- Ischemic changes on the electrocardiogram
- Israeli's sign

J

- Juvenile idiopathic arthritis

K

- Kalium-sparing diuretics
- Karcinom ledviny
- Kawasaki disease
- Keto bodies
- Ketones
- Kidney cancer
- Kidney damage in diabetes mellitus
- Kidney tumors

L

- Laxatives
- Lipoma
- Liver cirrhosis
- Loop diuretics
- Lung diseases in pregnancy
- Lymphangioma

M

- Malabsorption syndrome
- Malignant tumors of the skeleton
- Malnutrition and carenic states
- Mean arterial pressure
- Mechanisms of cancer development
- Mechanisms of tumor formation
- Mediastinitis
- Mental disorders in the elderly
- Mesenchymal tumors
- Metabolic osteopathy
- Metrorrhagia
- Myelodysplastic syndrome
- Myeloproliferative diseases
- Myocarditis
- Myopathy
- Myxedema
