

Category:Missing link to the original WikiScripta article

It is necessary to add the original source to each article!

Pages in category "Missing link to the original WikiScripta article"

The following 200 pages are in this category, out of 318 total.

(previous page) (next page)

5

- 5 aminolevulinic acid

A

- Ablation
- Abrasion (gynecology)
- Abruptio
- Acid-Base balance
- Acid-base balance disorders (neonatology)
- Acidosis (signpost)
- Acinetobacter calcoaceticus
- Actinobacillus
- Actinomycosis
- Acute cholangitis
- Acute scrotum
- ADH
- Adrenal glands
- Adrenaline
- Air embolism in obstetrics
- Aldosterone
- Alkalosis (signpost)
- Amnioscopy
- Amniotic fluid embolism, shock, DIC - diagnosis, prevention, therapy
- An Infant
- Anatomy of the periodontium
- Annihilation
- Anorexia Nervosa
- Anxiety disorders
- Apert syndrome
- Asthma bronchiale/PGS (VPL)
- Autonomic Ganglion
- Axillary nerve palsy

B

- Basic periodontal instruments
- Benign prostatic hyperplasia
- Bleeding in pregnancy
- Blood vessels
- Breast cancer in a man
- Breastfeeding
- Budd-Chiari Syndrome
- Burn Injury
- Burn shock

C

- Calcar calcanei
- Calcification of the dental pulp
- Carbuncle
- Cardia (histological slide)
- Cardiac tamponade (pediatrics)
- Cardiotocography
- Carpal bones
- Catatonic syndrome
- Cause of disease

- Cement cements
- Cephalhematoma
- Ceramic materials in prosthetics
- Cervical fascia
- Cherubism
- Childbirth
- Chondropathy
- Chopart's joint
- Chronic tubulointerstitial nephritis
- Ciliary ganglion
- Circulatory system
- Classification of periodontal diseases
- Classification of shock (pediatrics)
- Classification of silicone impressions according to consistency
- Clastogens
- Cleidocranial dysplasia
- Collimator
- Congenital disorders of glycosylation
- Congenital heart defects/Repetitorium
- Congenital strain
- Connection of bones
- Consomic tribe
- Convulsions (pediatrics)
- Cor pulmonale
- Cubital Canal
- Curvature of the spine
- Cysts

D

- Dead fetus syndrome
- Death
- Defensive breathing reflexes/Repetitorium
- Dental waxes
- Dermatitis herpetiformis
- Determination of glucose in urine
- Deterministic effects of ionizing radiation
- Diagnostic imaging methods in senology
- Diagnostic methods in the examination of the heart and large vessels
- Difference between average and maximum lifespan
- Disorders of acid-base balance
- Disorders of glucose metabolism/Questions and case studies
- Disorders of lysosome metabolism/Lysosomal hydrolase deficiency
- Disorders of uric acid metabolism/Questions and case studies
- Dissection of the thoracic aorta
- Drop test
- Dysmenorrhoea

E

- Effects of ionising radiation
- Electrocardiogram manifestations of disturbances of impulse generation and conduction
- Embolism
- Endocarditis
- Endocrine disease of the gonads
- Epidural Hematoma
- Epiglottis
- Eponyms in anatomy
- Erythroplakia
- Eugenics
- Examination of glomerular filtration
- Excitotoxicity in the pathogenesis of CNS disorders

F

- Facial nerve palsy
- Fractures of the proximal femur
- Falx inguinalis
- Fechtner-Epstein syndrome
- Female genital system (histology)
- Fibula
- Finger bones
- Focal segmental glomerulosclerosis
- Founders of body therapy
- Fractures of the leg bones

- Fractures of the leg bones
- Fractures of the lower leg
- Functional examination of the kidneys

G

- Galea aponeurotica
- Gamma camera
- Gastrin
- GE3LS concept
- Gene expression
- Gene expression disorders/Questions and case studies
- Genomic DNA
- Genomic imprinting
- Genotoxic Substances
- Genotype
- Gestational Trophoblastic Disease
- Gingiva
- Gingivitis
- Glomerulonephritis
- Glomerulopathy
- Glomerulopathy manifested by nephrotic syndrome
- Glucose in the urine
- Glycoproteinoses
- Granulocytosis
- Gypsum

H

- Head fascia
- Head's zones
- Heart rhythm disorders (neonatology)
- Hemoglobinopathies
- Hereditary metabolic disorders/Genetic background
- Hereditary osteo-onychodysplasia
- Hiatal hernia
- Hip pain in children
- Hip-Bone
- History of the VFN Urological Clinic and the 1st Faculty of Medicine of the University of Prague in Prague
- Hybridization experiment
- Hydrocolloidal impression materials
- Hypercalcemia in sarcoidosis
- Hypertrophic cardiomyopathy/treatment
- Hypoglycemia
- Hypokinetic syndrome
- Hypospadias
- Hysterectomy

I

- Impaired consciousness (pediatrics)
- Impaired consciousness and seizures (paediatrics)
- Incisura scapulae
- Infectious scleroma
- Inflammatory rheumatic diseases
- Inorganic vaginismus
- Intercross
- Intimal hyperplasia
- Ischial bone
- Ito Cells

J

- Juvenile Hyperbilirubinemia

K

- Kidney transplant
- Knock-on

L

- Leukocoria
- Lisfranc joint
- Liver

- Liver
- Liver regeneration
- Local anesthetics (pharmacology)
- Low sexual appetite in men
- LSD
- Lumbar fascia
- Lysosomal Diseases

M

- Macrohematuria
- Macroscopic manifestations of inflammation
- Malformation
- Malignant arrhythmia
- Manifestations of cancer in the oral cavity
- Mass water supply
- Meals for workers
- Median Nerve
- Median nerve palsy
- Membrane sac
- Membranous glomerulonephritis
- Metacarpal bone
- Metatarsal bones
- Microhematuria
- Mixed tumors
- Montreal Cognitive Assessment
- Moulding materials
- Multiple pregnancies
- Munchausen Syndrome
- Myositis ossificans

N

- Neonatal cholestasis
- Niemann-Pick disease
- Nocturia
- Non-surgical treatment of malignant gynecological tumors
- Not thriving
