Some comments

Hello everybody,

I will recommend to rename this article (e.g. Parasexual processes... or something like that). All three processes (Conjugation, transformation and transduction) should also be individual articles and they will be only included into this one. Thank you for the article. Keep up the good work! --  Antonín Šípek, MD -- Editorial Board of WikiLectures 10:30, 11 December 2011 (CET)

Hi Azrael,

I agree, we should have separated articles too, but I would keep this article as it is (because it is exam topic and is good to have short exact definition of these topics on one place). We can create separated longer articles about Conjugation, Transformation and Transduction and insert links on these articles via template {{Details}}.--
