

Template:Block

This template should be used for marking any user, which should be blocked by Head editors. Usually because of inserting nonsense into pages of WikiLectures. This users page will be automatically sorted to category Block. The template can be used without parameter too, but it is much better to fill the parameter and explain your reasons for blocking this user and your signature:

Without parameter

- `{{Block}}`

Request to block this user!

With parameter

- `{{Block|Inserting of spam --~~~~}}`

Request to block this user!

Reason: Inserting of spam --Wikiholic 05. 07. 2011,
14:26 (UTC)
