

# Template:Spam

## This user enters spam

Check user IP address (<https://www.wikilectures.eu/index.php?title=Special:CheckUser&user=Spam>) •  
Report IP to the provider

Recommended procedure how to treat spam

## Template use

This template should be inserted to a discussion page of the user who enters spam to WikiLectures. It will help you how to treat spam and it contains two links to the extension **SpamReport**. The first one (**Report IP ... to the provider**) will show you information about the IP address and facilitates reporting spam to a provider. If this link does not work properly, you can use the second one that enables you to write the IP address into the form yourself.
