WikiLectures competition

Hello Satrax,

it is a pleasure for me to announce that your article Pancreatic Hormones won the **5th place**. It is a good article by itself and it contains relevant bibliography. However it lacks any information on pancreatic polypeptide, but the information on DM is quite abundant in this article. But generally speaking it is a very nice article which will be very useful for all students of medicine!

You can see other results at Forum:Competition.

Please, contact us immediately at our editorial e-mail address and we will send you more information, when and where your prize will be delivered to you :-).

Thank you for your efforts to make WikiLectures better place for thousands of students. We appreciate it and hope you will continue in your contributions to WikiLectures.
