Hi, are really all users familiar with the "LF" shortcut that stands for "medical faculty"? --Pavel Dusek 23:42, 23 October 2011 (CEST)

Good evening, we were thinking about it for a long time, but there is no alternative (no generally english shortcut). But our english paralel students understand it. Do you think that there is any better option? --

Hey, LF works just fine. We do study at Czech Faculties and in general we are very aware about what our school/facutly is called so this is no problem at all ^^ In fact would be weird changing it. --
