

# Category:Radiodiagnostics

## Pages in category "Radiodiagnostics"

The following 63 pages are in this category, out of 63 total.

### A

- Ankylosing spondylarthritis
- Aplasia
- Arteria lusoria

### B

- BI-RADS
- Bone age
- Bouchard's nodes

### C

- Chondrosarcoma
- Compton's phenomenon - what it proves, the benefit
- Computed tomography and Hounsfield units

### D

- Diagnostic imaging methods in retroperitoneum examination
- Diagnostic imaging methods in senology
- Diagnostic imaging methods in sudden abdominal events
- Diagnostic imaging methods in the examination of peripheral vessels
- Diagnostic imaging methods in the examination of the digestive tract
- Diagnostic imaging methods in the examination of the gallbladder and bile ducts
- Diagnostic imaging methods in the examination of the pancreas, liver and spleen
- Diagnostic methods in the examination of the heart and large vessels
- DICOM
- Diffusion phantom
- Digital subtraction angiography
- *Doppler effect*
- Doppler phenomenon
- Drug-eluting Balloon
- Dysostosis
- Dysplasia (Orthopaedics)

### E

- Elastography
- Endostosis
- Ewing's Sarcoma

### F

- Fluoroscopy

### H

- Heberden's nodes
- Hyperostosis

### I

- Image detection
- Inflammatory rheumatic diseases
- Interventional Radiology
- Intimal hyperplasia

### L

- Legislative requirements for handling sources of ionizing radiation

## **M**

- Malignant tumors of the skeleton
- Mammography
- Metabolic osteopathy

## **O**

- Orientation of the X-ray image
- Orthopantomography
- Osteodystrophy
- Osteolysis
- Osteonecrosis

## **P**

- Pediatric radiology
- Periosteal reaction
- Pneumoperitoneum
- Portal vein embolization
- Protection against ionizing radiation

## **R**

- Radioactivity (2. LF UK)
- Radiodiagnostic examination of the colon
- Radiodiagnostic examination of the esophagus and stomach
- Radiodiagnostic examination of the esophagus and the stomach
- Radiodiagnostic examination of the large intestine
- Radiodiagnostic examination of the small intestine
- Rheumatoid arthritis

## **S**

- Shielding and protection from gamma radiation

## **T**

- Telemedicine
- TIPS(Transjugular Intrahepatic Portosystemic Shunt)
- Transcranial Doppler ultrasonography

## **U**

- Ultrasound/Diagnostic applications of ultrasound

## **X**

- X-ray imaging of odontogenic tumors
- X-ray therapy
