Category talk:Users

Theres something going on with the list of users in this page. Also the index part classifies the users in *U*. Am i missing something?

> Do you mean sorting? Compare code on your users page with Nabel's for example. On you page is category written thisway: [[Category:Users]] and on Nabel's just like this [[Category:Users]]. This is the cause of the difference :-). -- Michaela Romerova -- Editorial Board of WikiLectures 23:48, 6 November 2011 (CET)
