**Poster Template Lf2 Biophysics**

# Poster title goes here the essential numk

**Group  
Number:**

**Na**

## Introduction

- Start with a good definition of the terms in the title which shows that you have understood clearly what the title of your poster is about!
- Explain the definition in more detail - as if you are explaining it to a colleague who does not know it.

## Importance in clinical medicine

- In which branches of medicine is it important?
- What is its role in practical medicine e.g., diagnosis, therapy, prevention...?

## Literature review

Say briefly what the literature says about it.

*Captions to be set in Times or Times New Roman or equivalent, italic, between 18 and 24 points. Left aligned if it refers to a figure on its left. Caption starts right at the top edge of the picture (graph or photo).*

*Captions to be set in Times or Times New Roman or equivalent, italic, between 18 and 24 points. Right aligned if it refers to a figure on its right. Caption starts right at the top edge of the picture (graph or photo).*

*Captions to be set in Times or Times New Roman or equivalent, italic, 18 to 24 points, to the length of the column in case a figure takes more than 2/3 of column width.*

# Poster title goes here, containing strictly the essential number of words only
