Talk:Genetic Drift

Hello, I tried to resize the image but the error message came out. If the image needs no resizing, could someone just checked the images and licenses? --Themyomuslih 08:23, 9 January 2012 (CET)

> Hi, it can not be resized (I tried a mont ago). Images and licenses checked. -- Michaela Romerova --

>> Hello everybody, the external images cannot be resized. However, it is also possible to reinclude the image as a simple Picture from Commons [1] (http://commons.wikimedia.org/wiki/File:Random_sampling_genetic_drift.gif) and set up the requested width. There should be no problem with the check revision -
