

Template:Button/documentation

Šablona slouží pro vytvoření klikatelného tlačítka. The button is based on the currently developed **OOjs UI** (<https://doc.wikimedia.org/oojs-ui/master/js/>), which should gradually replace all form fields across all wikiprojects of the foundation Wikimedia.

Parameters

Either the first parameter or the url parameter is mandatory, the others are optional.

```
{{Button
|internal link
|button text
|url = address of external link
|size = button size
|class = class name (see examples)
|class2 = name of a possible second class (see examples)
|title = the title that is displayed when the mouse hovers over the button
}}
```
