

Template:Highlighter/documentation

Allows text to be highlighted in a similar way to marking with a highlighter on paper.

Syntax

```
{{highlighter|text|color}}
```

The order of the parameters does not have to be followed.

An Example

```
{{highlighter|I want a green background|color=green}} Template:Zvýrazňovač.
```

Parameters

The 1st parameter can be almost any string.

Colors

- yellow - text highlighted in **yellow**
- light yellow - text highlighted in **light yellow**
- green - text highlighted in **green**
- light green - text highlighted in **light green**
- blue - text highlighted in **modře**
- light blue - text highlighted in **light blue**
- red - text highlighted in **red**
- pink - text highlighted in **pink**
- cyan - text highlighted in **cyan**
- light cyan - text highlighted in **light cyan**
- gray - text highlighted in **gray**

The default value (unless you fill in the color parameter) is yellow.
