

Template:ICDO/documentation

Inserts an external reference to an ICD-O entry. It uses the database from The International Agency for Research on Cancer website.

An Example

The unit can be found via the search box on the website The International Agency for Research on Cancer (<http://codes.iarc.fr/home>). In the template, enter the unit designation (number) before the unit name and the code from the end of the URL. For example, for malignant Brenner tumour from the URL <http://codes.iarc.fr/code/3529>, the code before the unit name is 9000/3 and the URL code is 3529.

```
{{ICD0|9000/3|3529}}
```

or

```
{{ICD0|number=9000/3|3529}}
```

will insert: 9000/3 (<http://codes.iarc.fr/code/3529>)

```
{{ICD0
| number = 9000/3
| URL = 3529
| unit = malignant Brenner tumour
}}
```

or

```
{{ICD0|9000/3|3529|malignant Brenner tumour}}
```

will insert: **malignant Brenner tumour** (ICD-O 9000/3 (<http://codes.iarc.fr/code/3529>))
