Template:Infobox - diseases

The *Disease* infobox can be used to briefly describe any disease. The infobox also contains specific entries for infectious diseases (causative agent, transmission, incubation period, infectivity), delete them for non-infectious diseases.

Usage

Paste the infobox into the article by copying and filling in the template below. Any omitted parameter lines will not be displayed at all.

You will need the following templates to complete this infobox:

- Template:ICD,
- Template:MeSH ID,
- Template:MedlinePlus,
- Template:Medscape,
- Template:OMIM.

```
{{Infobox - diseases
| english =
| image =
| caption =
| latin =
| Origin of disease =
| Risk factors =
| Pathogenesis =
| Transmission =
| Incubation period =
| Clinical picture =
| Diagnosis =
| Infectivity =
| Treatment =

```

An example

Non-infectious diseases

```
{{Infobox - diseases
| english = Measles
| image = Morbillivirus measles infection.jpg
| caption = Measles exanthem
| latin = Morbilli
| Origin of disease = measles virus (paramyxovirus, genus ''Morbillivirus'')
| Transmission = by droplets
| Incubation period = 10 days (catarrhal stage), 14 days (exanthem)
| Clinical picture = '''catarrhal form.:''' fever, runny nose, cough,
conjunctivitis, Koplik's spots;<br /> '''exanthemic form.:''' maculopapular
exanthema with seeding first on the head and face, later spreading to the
trunk and limbs
| Diagnosis = Clinical picture, detection of specific antibodies
| Infectivity = high
| Treatment = symptomatic, ATB for bacterial superinfection
| Complications = bacterial superinfection, interstitial pneumonia,
laryngitis, encephalitis, appendicitis
| Vaccinations = live vaccine, in the Czech Republic [[Vaccination
Calendar|Mandatory Vaccinations]] (triple vaccine: measles, rubella, mumps)
```

Demyelination. CD68 marks some macrophages

female sex, smoking

G35 (https://mkn10.uzis.cz/prohlizec/G35)

```
| Incidence in the Czech Republic =  2,1/100 000 inhabitants (Czech republic,
2014)
| Prevalence in the Czech Republic =
| Mortality worldwide =
| Mortality in the Czech Republic =
| ICD = {{ICD|B05}}
| MeSH ID = {{MeSH ID|D008457}}
| MedlinePlus = {{MedlinePlus|001569}}
| Medscape = {{Medscape|966220}}
}}
