Template:Quote/documentation

This template inserts the quote. The first parameter contains the text, the second the author of the quote.

An example of the code:

```
{{Quote|Fried eggs suck, chutney sucks, but when it's put together it somehow mysteriously works.|Arnold J. Rimmer, Red Dwarf}}
```

inserts:

Fried eggs suck, chutney sucks, but when it's put together it somehow mysteriously works.

— Arnold J. Rimmer, Red Dwarf
