Hygiene and Epidemiology

Hello Kgongwanauchada,

let me thank you for the great job you did with exam topics in **Hygiene and Epidemiology**. You have found out how to create an article, you have written a studying material for **thousands of medical students** and you are able to work with WikiLectures now.

We would be very pleased if you **continue in contributing to WikiLectures**. You can expand your old articles or write new ones – no matter what topic you will choose. Do not forget that editorial board is ready to help you all the time!

And if you think there should be any **improvement**, please, provide us a short feedback. Thank you very much!
