WikiLectures competition

Hello Nablay,

it is a pleasure for me to announce that your article Requirements at Examination Methods won the **7th place**. It is a great topic explained in a simple way with nice examples.

Your article Attributable and Relative Risks, Odds Ratio wins the **8th place**. It is a very good article, however it lacks some example to be more useful for students.

And finally, your article Hypothesis Testing wins the **10th place**. It is a good article written on a complicated topic. But the source of the inserted table is unknown. It could be rewritten to wiki markup (could you please do it :-)).

You can see other results at [Forum:Competition](#).

Please, contact us immediately at our editorial e-mail address and we will send you more information, when and where your prize will be delivered to you :-).

Thank you for your efforts to make WikiLectures better place for thousands of students. We appreciate it and hope you will continue in your contributions to WikiLectures.
